# UNITED Storyboard

Slide 1

Description :

- Showing the UNITED project
- Displaying the UNITED Logo
- Showing the European Union Logo
- Showing Disclaimer

Description :

Showing the UNITED project

Slide 3

Description :

- Showing things to be discussed

Slide 4

Description :

Southeast Asia as one of the largest automotive industry markets in the world

Description :
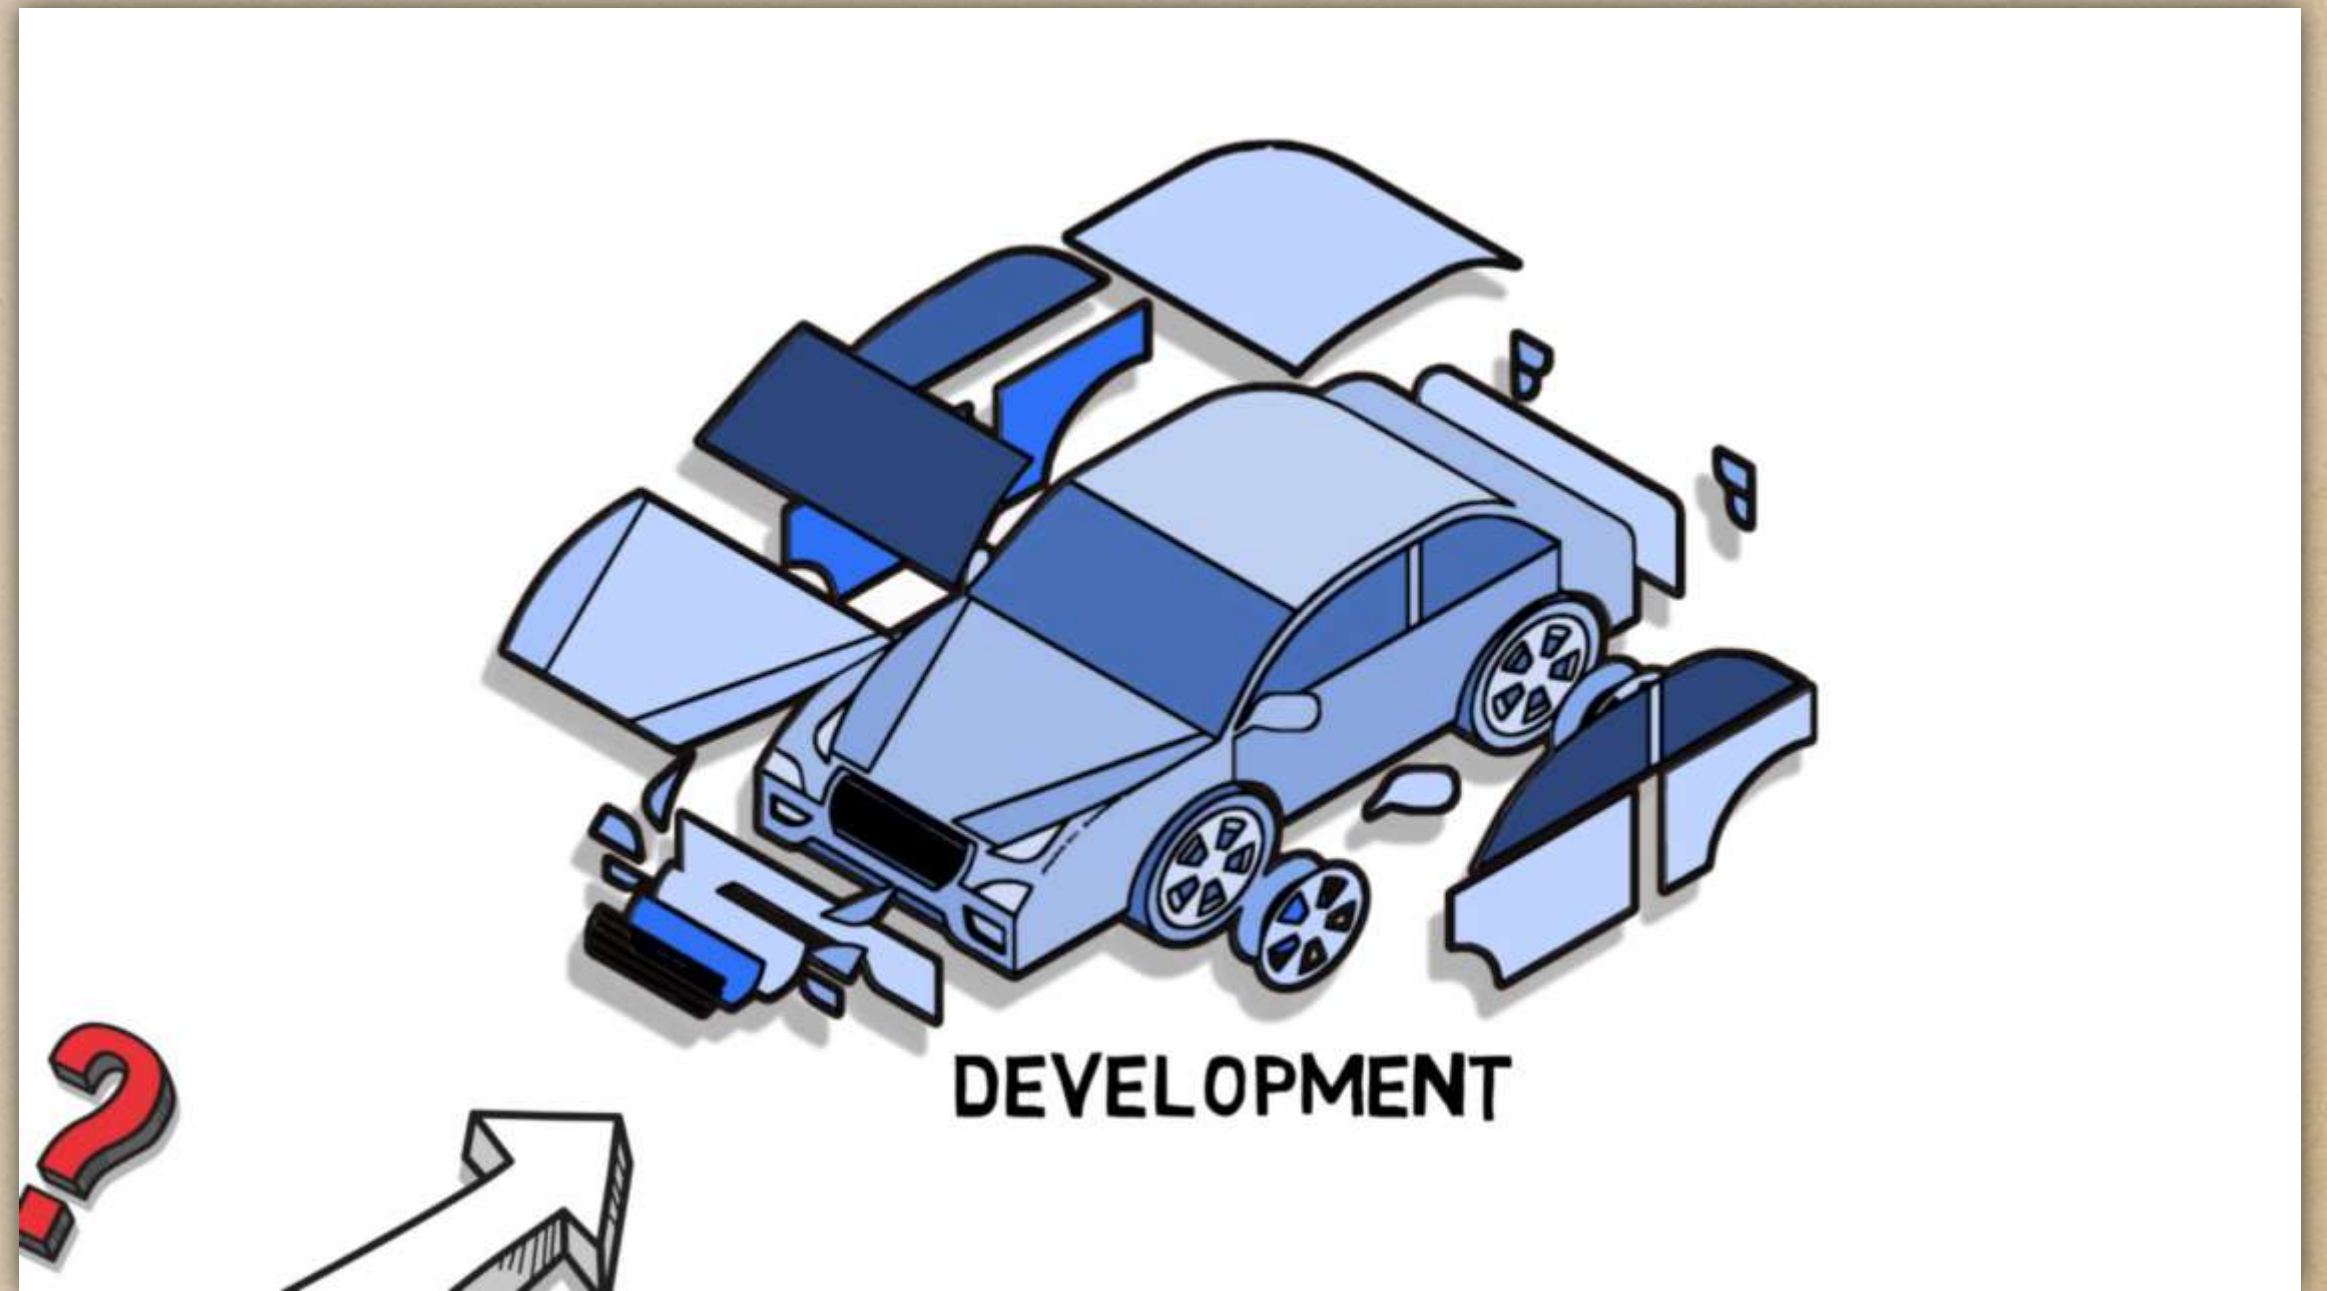

Limited manpower for the automotive industry in Southeast Asian countries
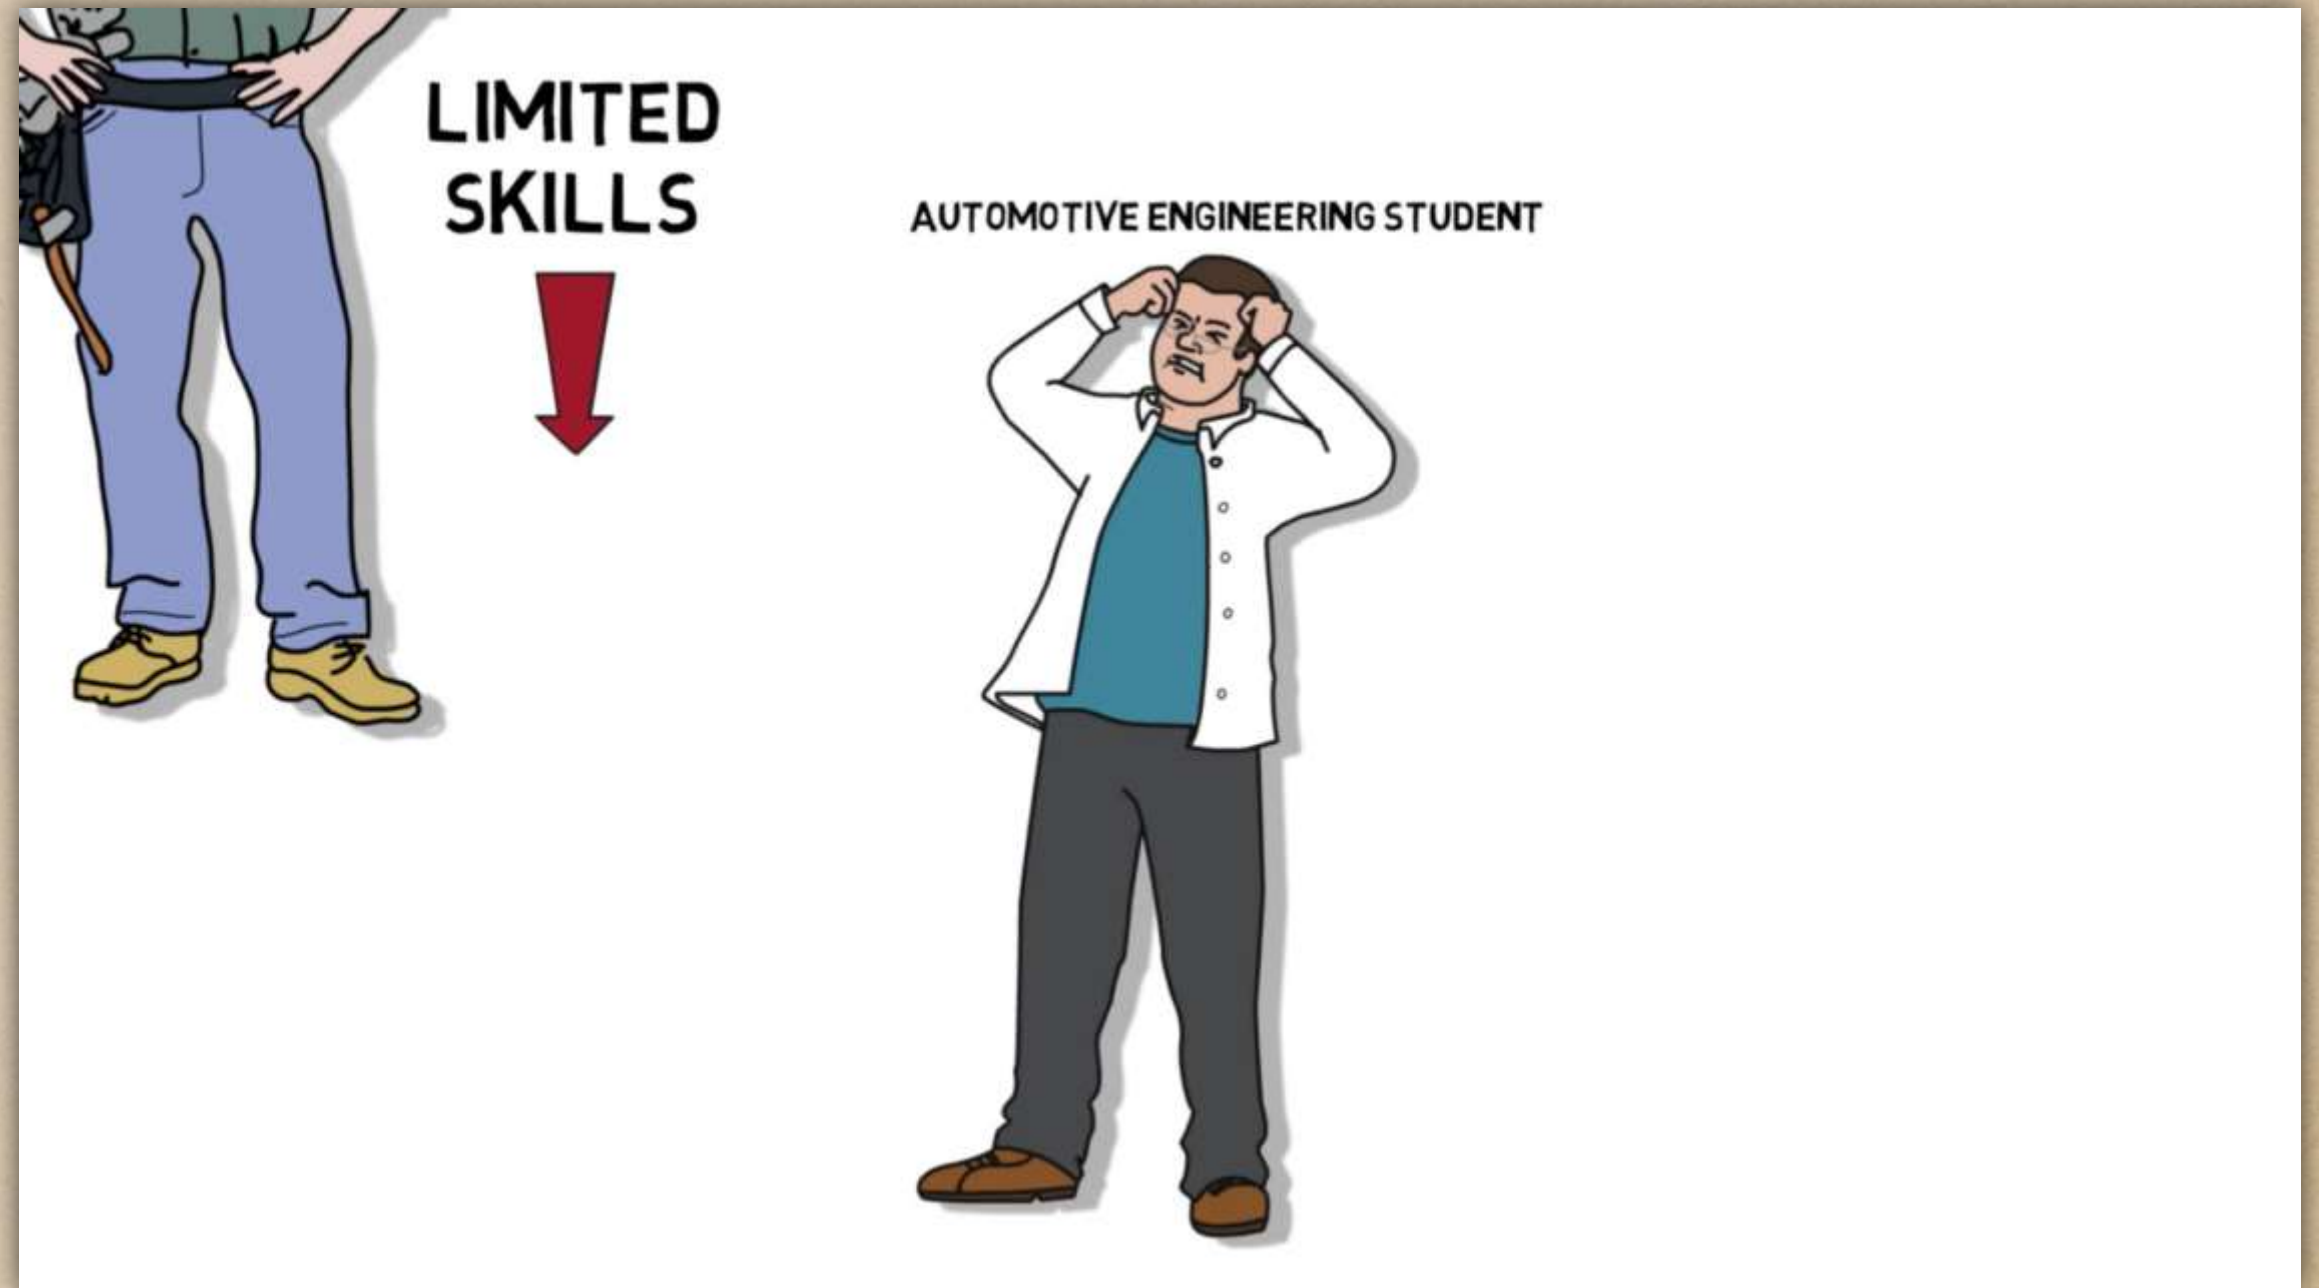

Description :

In line with the development of the automotive industry
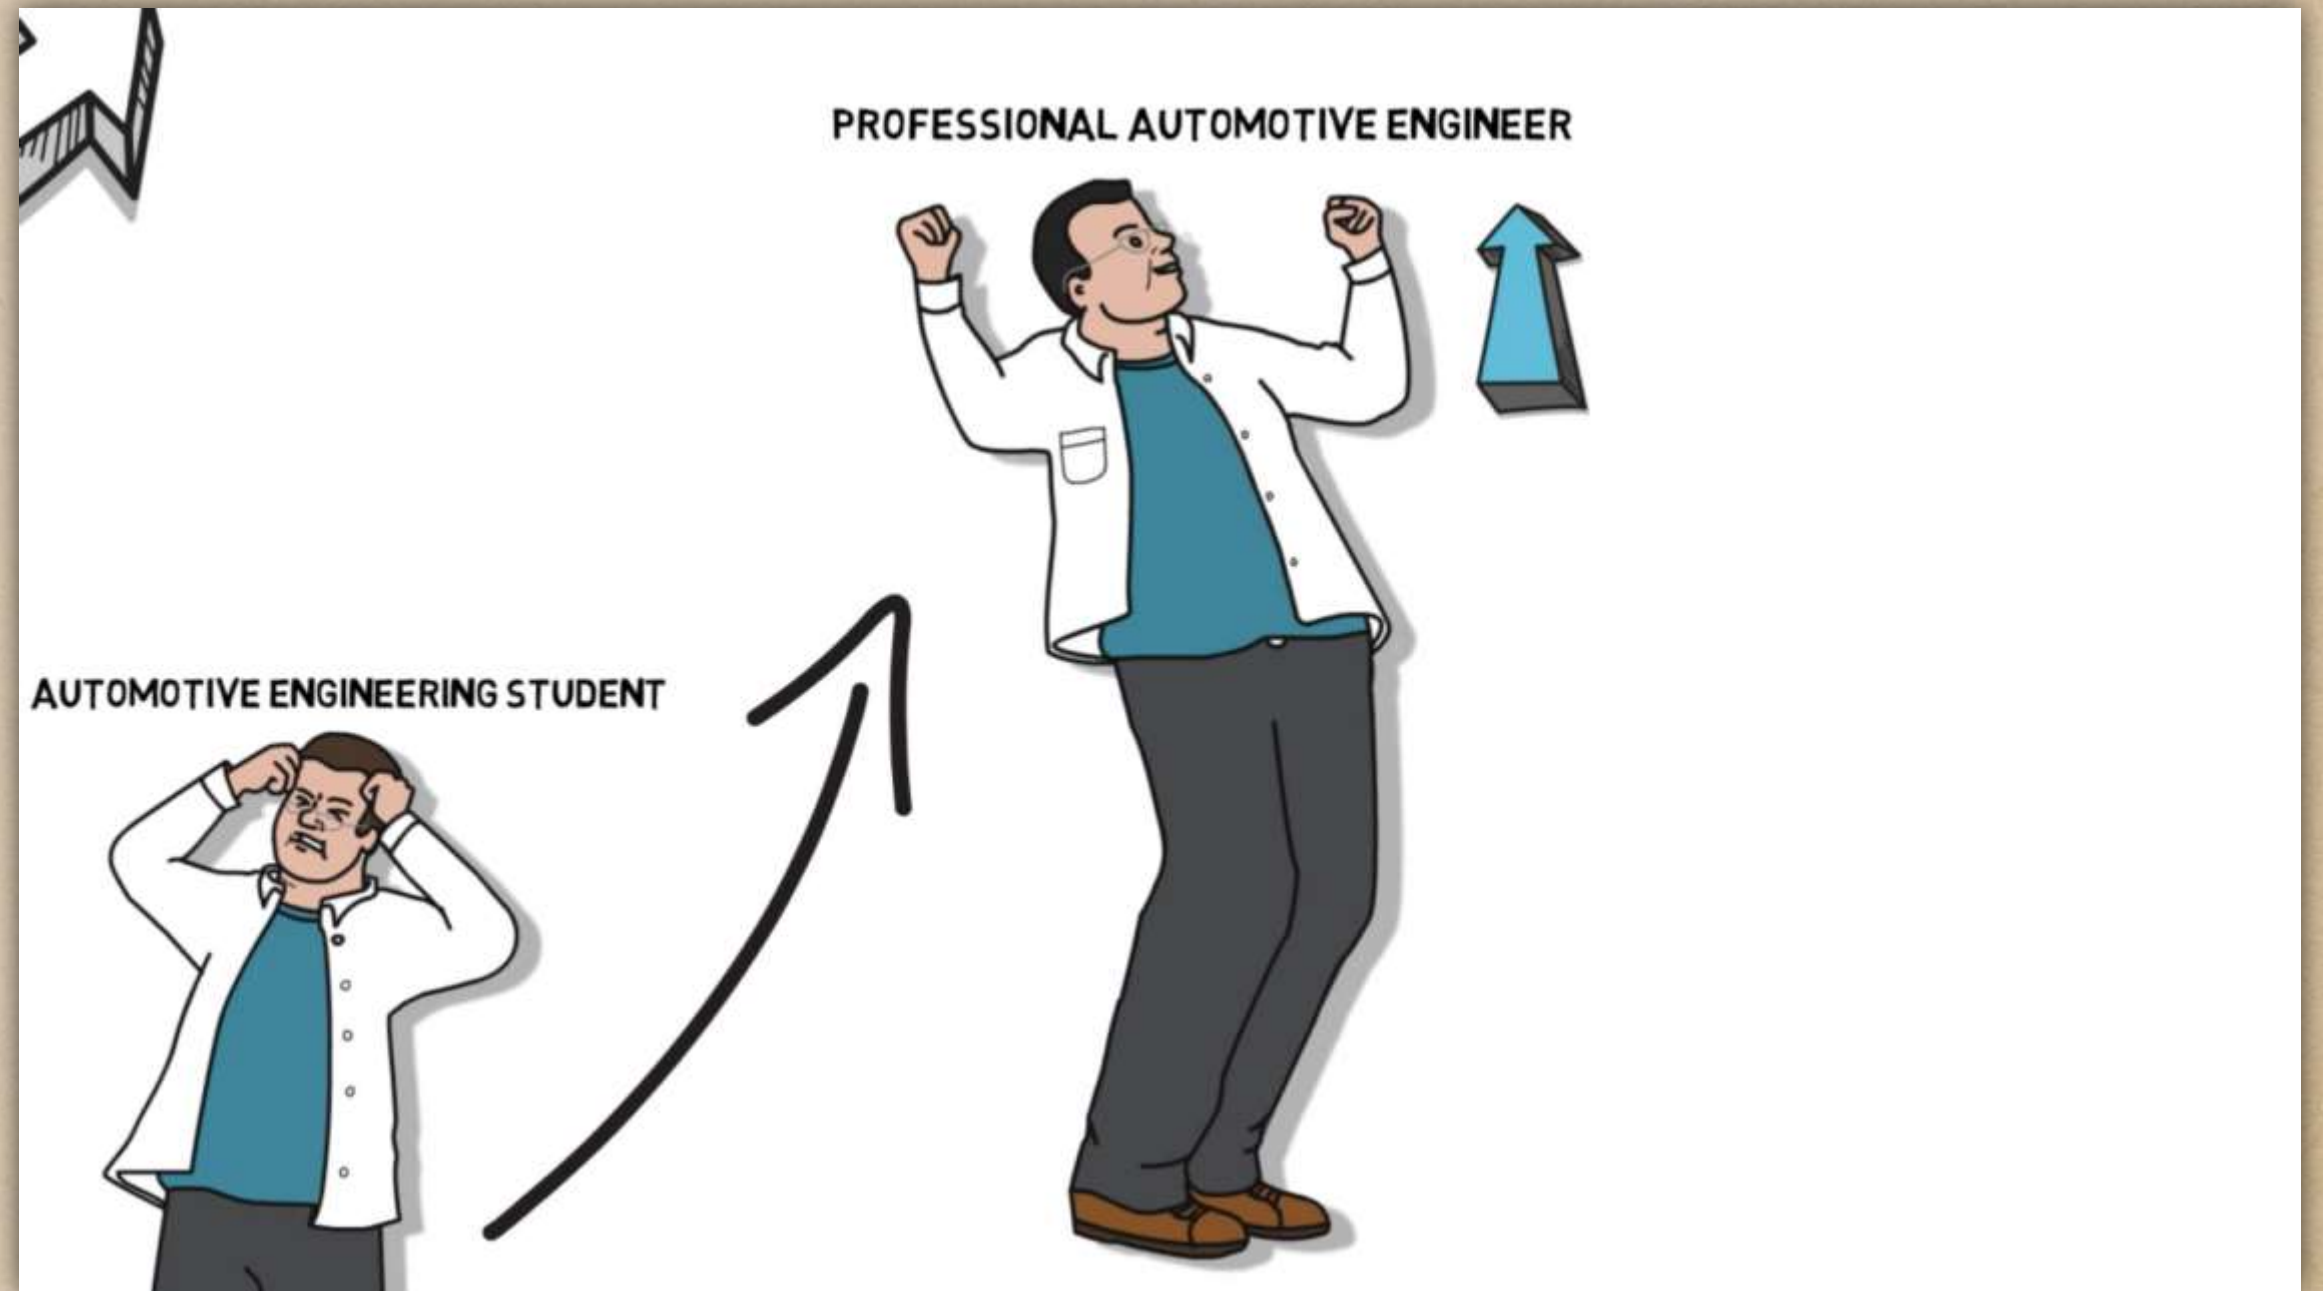

Slide 7

Description :

Showing someone who looks troubled

Slide 8

Description :

Showing someone who looks professional

Slide 9

Description :

The main goal of the United project. Show arrows on target

Slide 10

Description :

The UNITED project aims to build 'Engineering Knowledge Transfer Units' (EKTUs) to Improve the Quality of Student Work Readiness and Regional Development' in line with business and cooperation in the targeted area

Slide 11

Description :

Involving 6 Universities from 3 countries in Southeast Asia

Slide 12

Description :

Universitas Sumatera Utara (USU), Indonesia

Slide 13

Description :

Universitas Udayana (UNUD), Indonesia

Slide 14

Description :

Universiti Putra Malaysia (UPM), Malaysia

Slide 15

Description :

Universiti Teknikal Malaysia
Melaka (UTeM), Malaysia

Slide 16

Description :

Chulalongkorn University (CKU), Thailand

Slide 17

Description :

Mahasarakham University (MSU), Thailand

Slide 18

Description :

Showing all the Southeast Asian Unniversities involved

Description :

Together with several automotive companies, namely:

AUTOMOTIVE COMPANIES

Slide 20

Description :

Dreamedge SDN BHD, Malaysia

Slide 21

Description :

Atipong Motor, Thailand

อธิพงษ์มอเตอร์
ATIPONG MOTOR THAILAND

Slide 22

Description :

Showing map of europe

Slide 23

Description :

Zoom in map view of Europe.
In collaboration with 3
European Universities,
as:

Slide 24

Description :

FH Joanneum- University of Applied Sciences, Austria

Slide 25

Description :

FH Aachen-University of Applied Sciences, Germany

Slide 26

Description :

and Politecnico di Torino, Italy
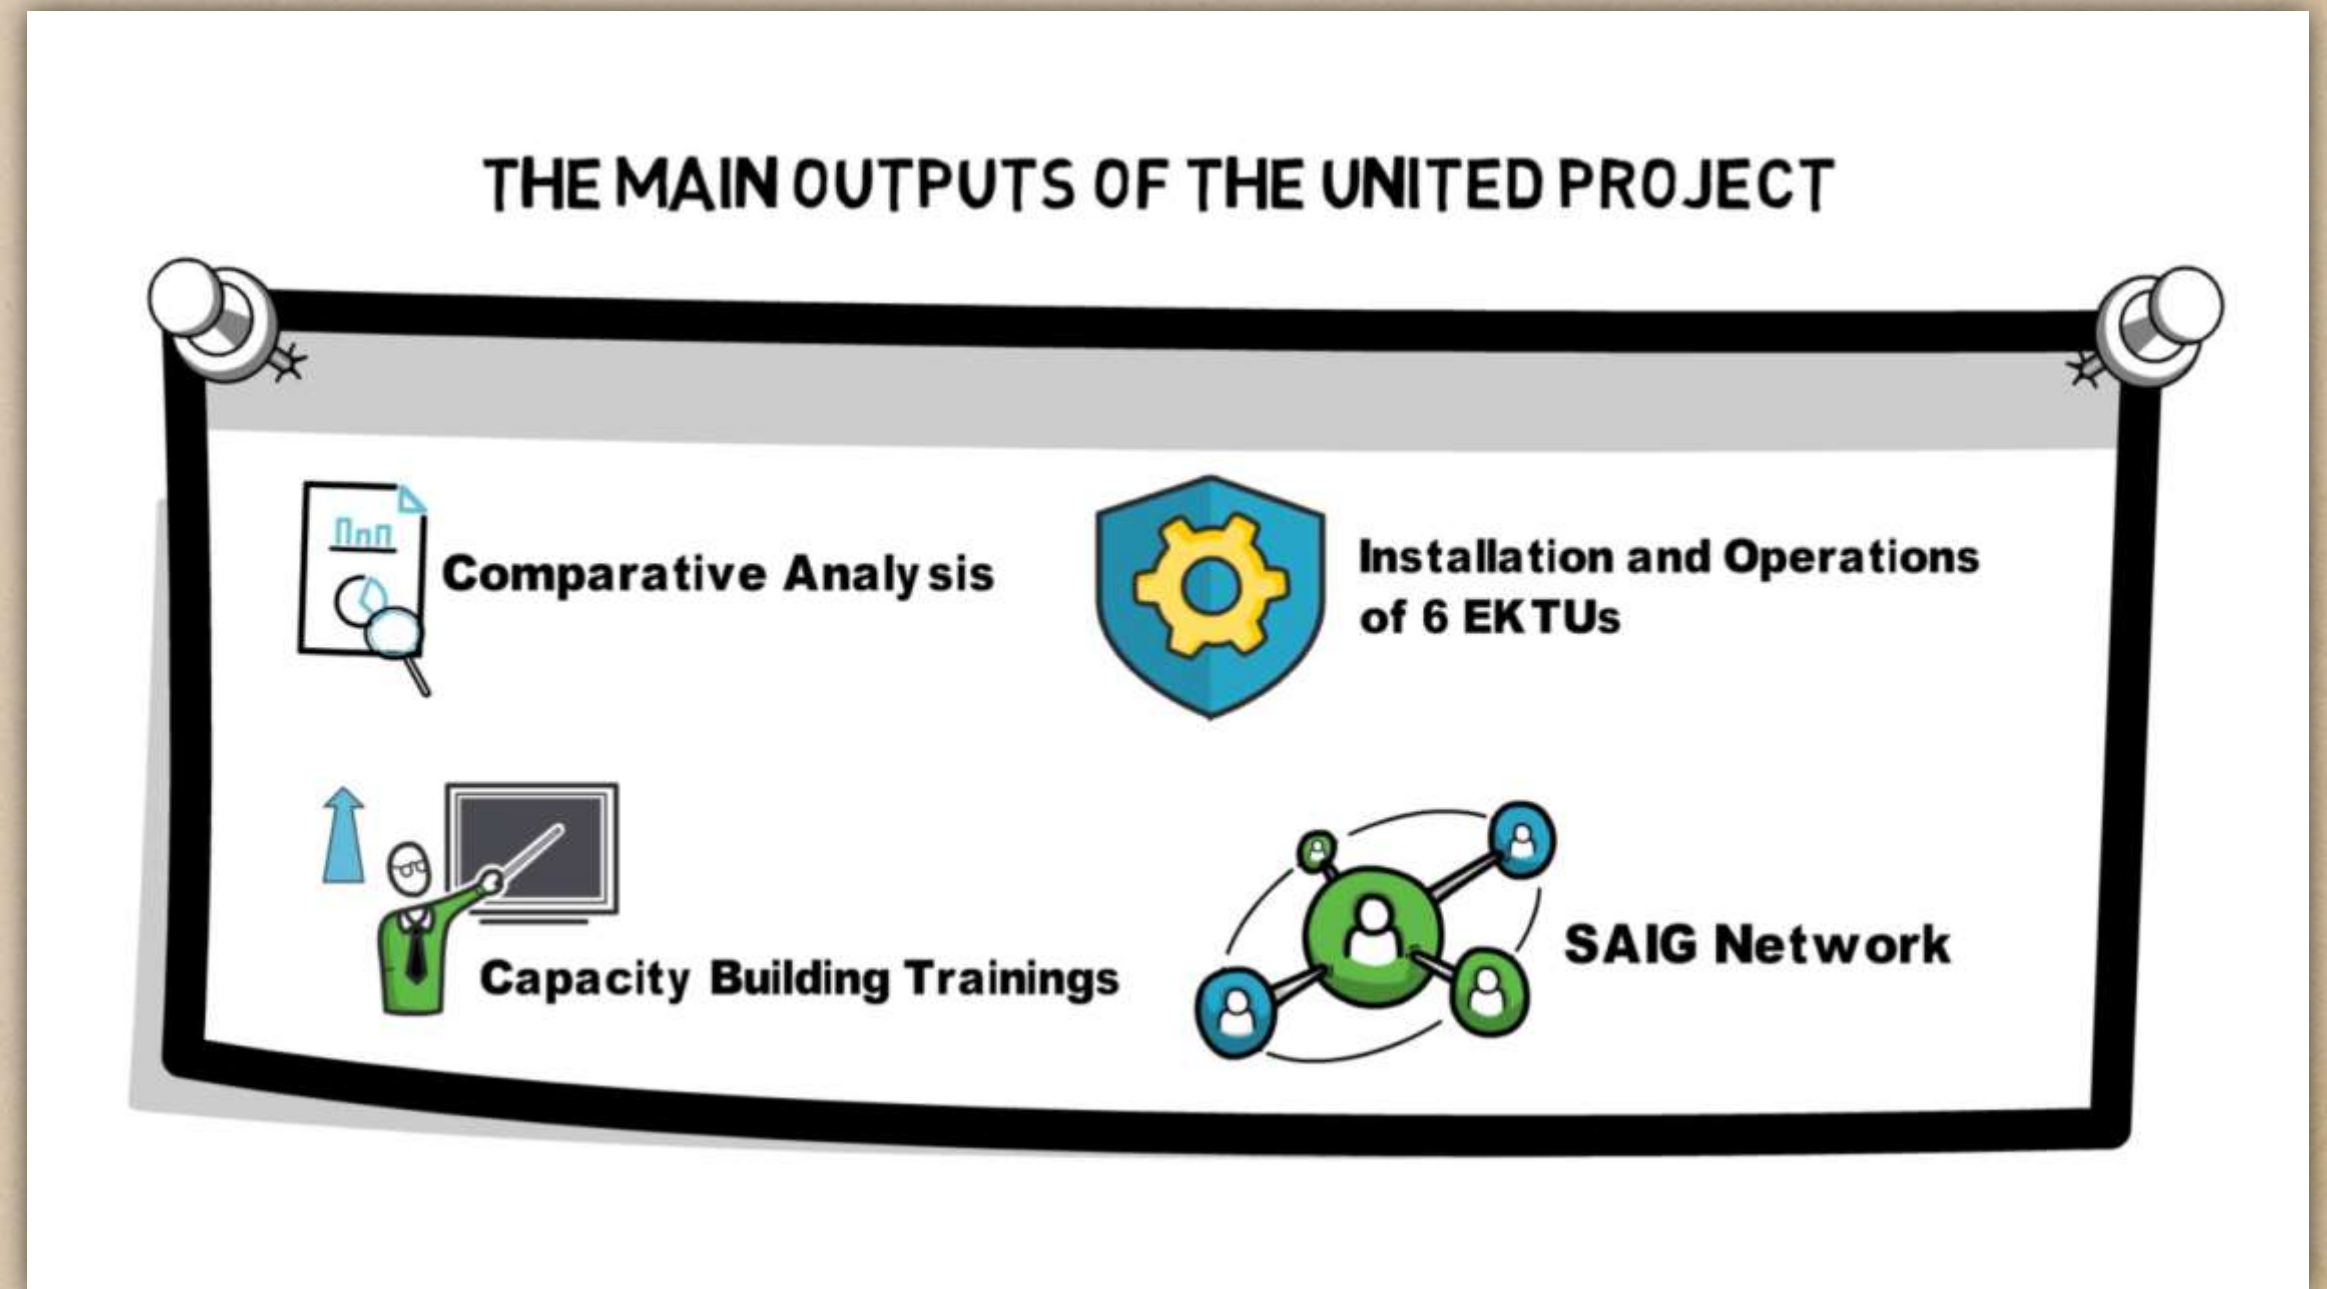

Slide 27

Description :

Zoom out map of Europe and the entire Universities involved

Slide 28

Description :

This project started with:
- Comparative Analysis
- Capacity Building
- Installation and Operation of 6 EKTUs
- SAIG Network

THE MAIN OUTPUTS OF THE UNITED PROJECT

Comparative Analysis

Installation and Operations of 6 EKTUs

Capacity Building Trainings

SAIG Network

Slide 29

Description :

1. Comparative analysis of the automotive industry and training needs for Engineering Knowledge Transfer Units in Indonesia, Malaysia, and Thailand
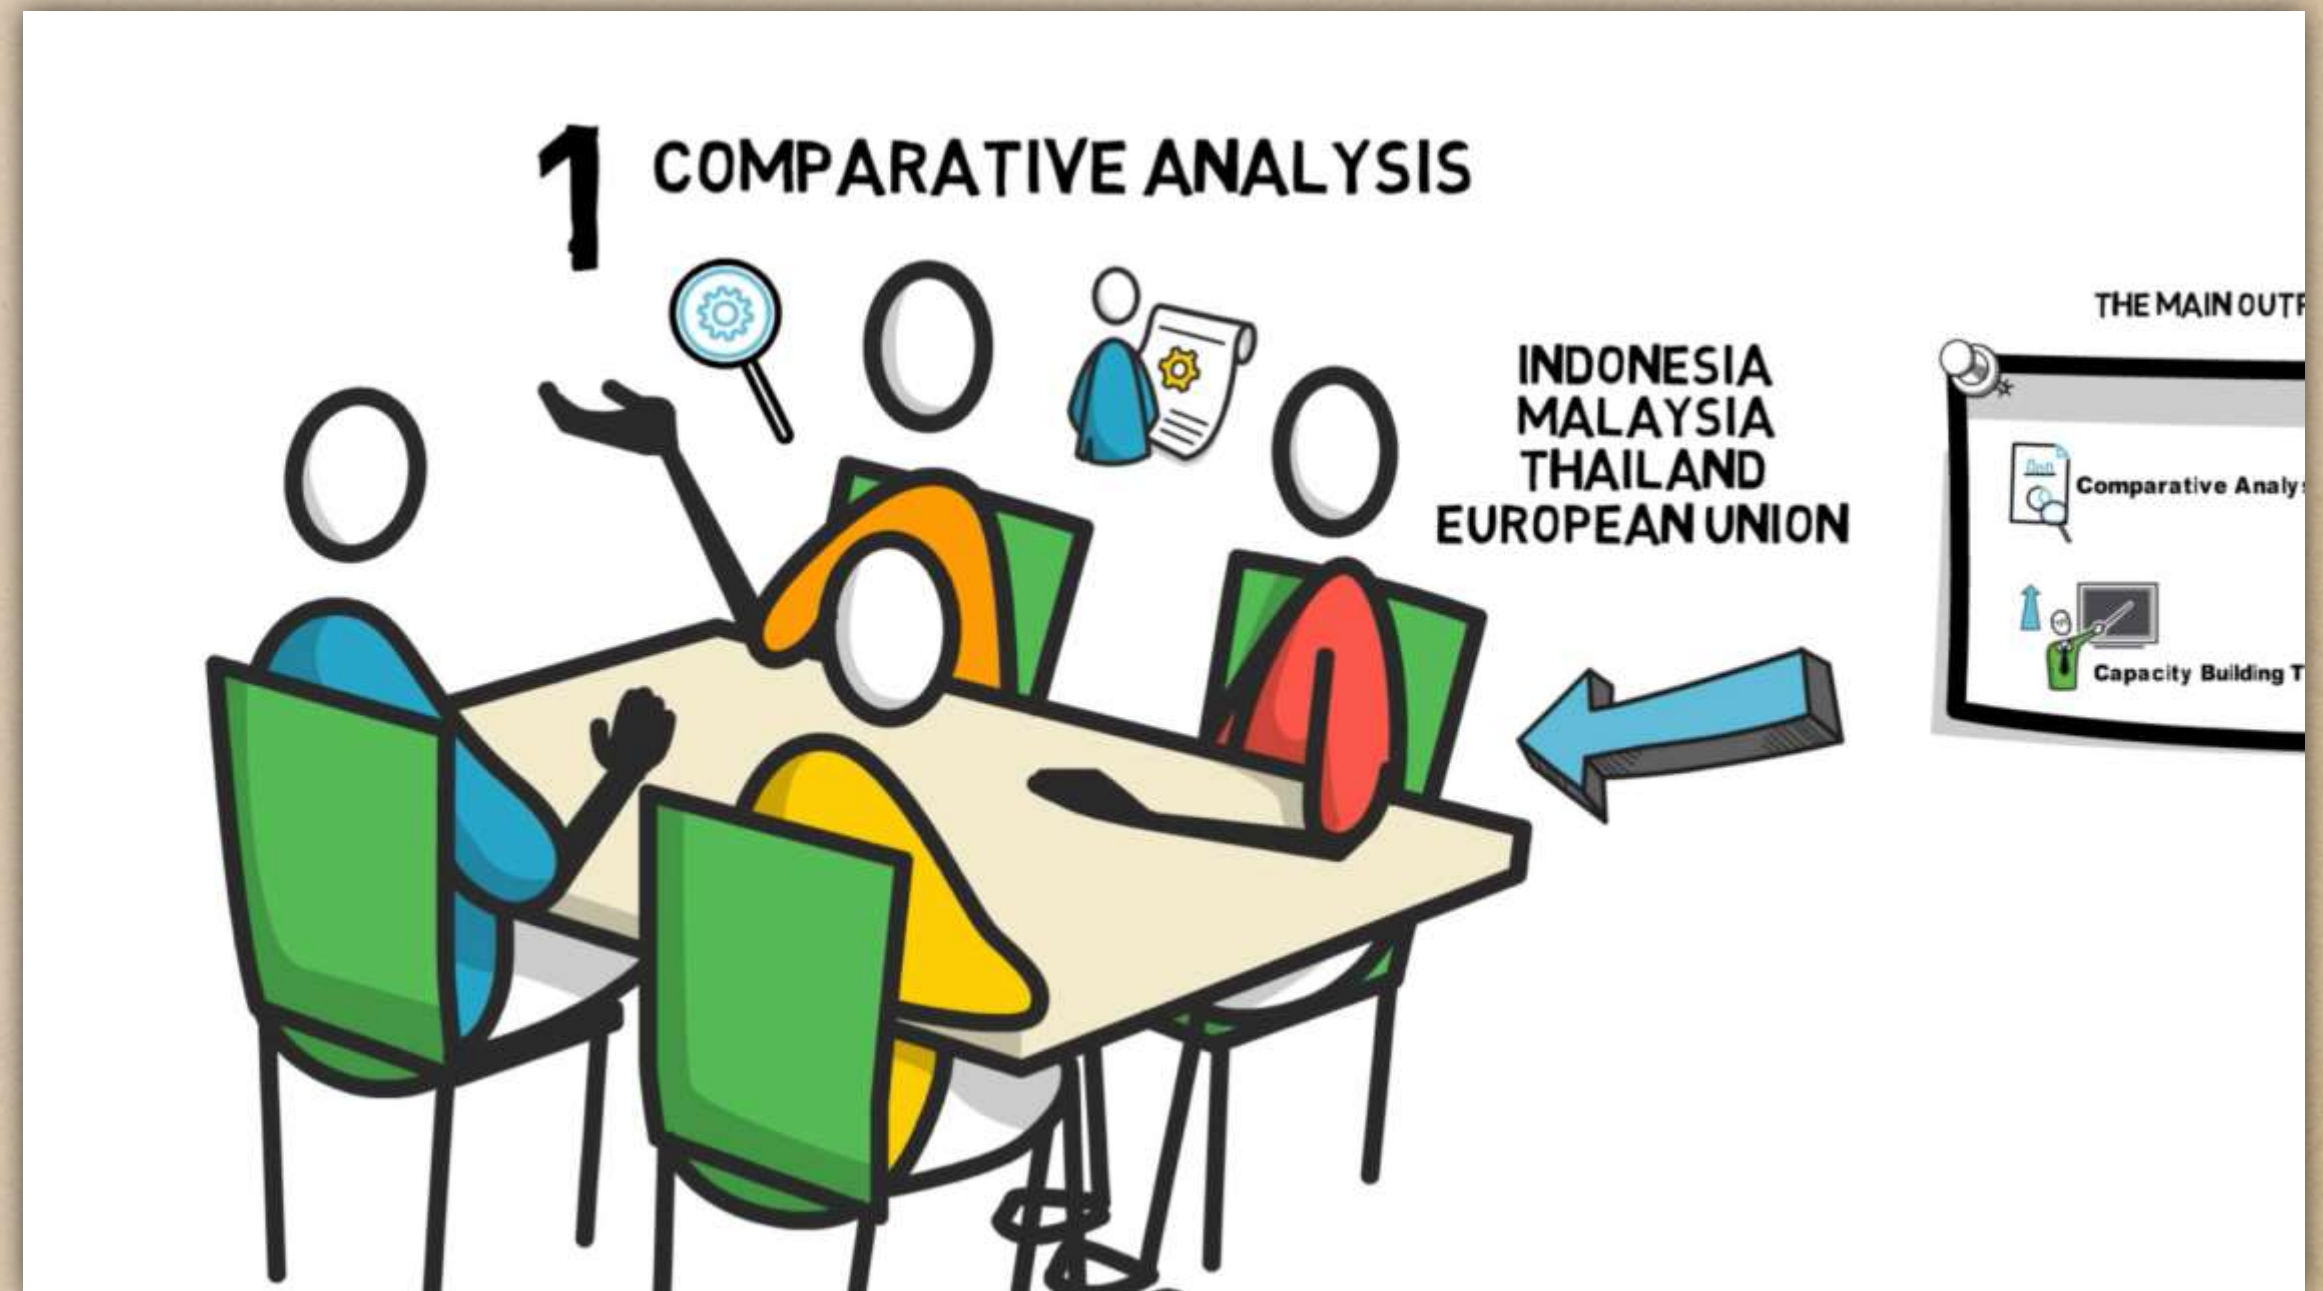

Description :

2. Capacity building, namely training for trainers with the aim of increasing the capacity and ability of the trainers

Description :

3. Development:
Includes identification of technical needs, installation and operation of the Engineering Knowledge Transfer Units, which means setting up/building a unit/lab that can be used to train and transfer knowledge in automotive engineering
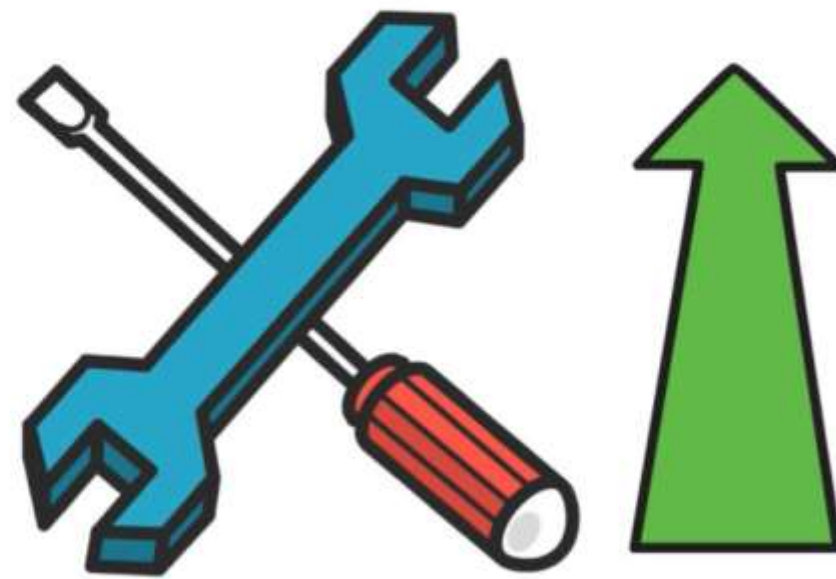

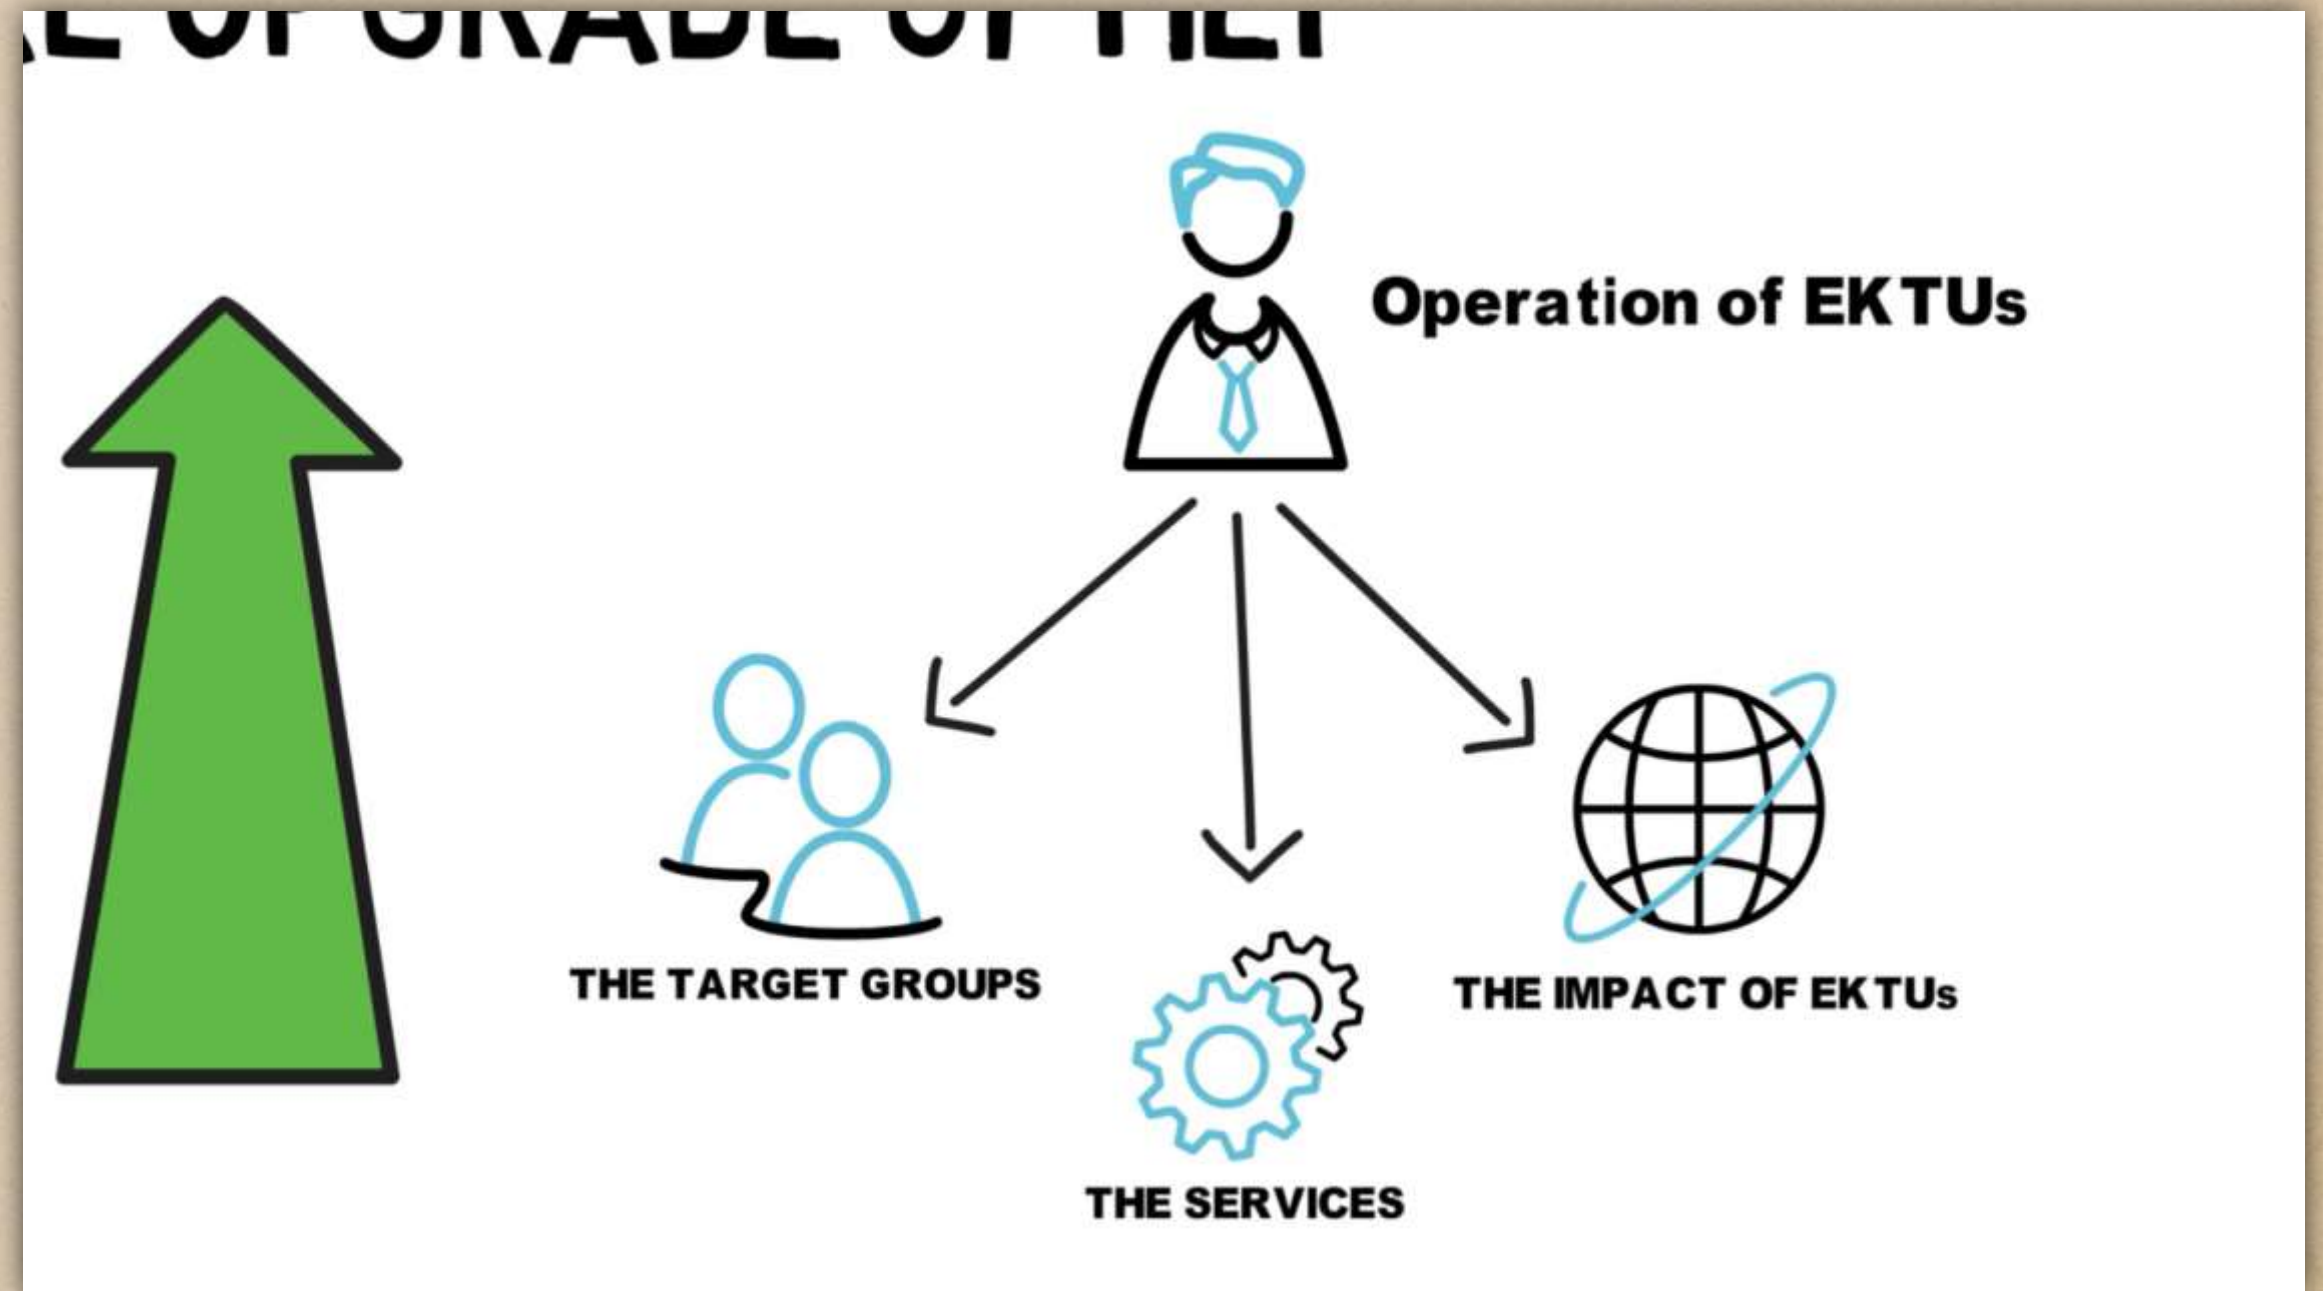

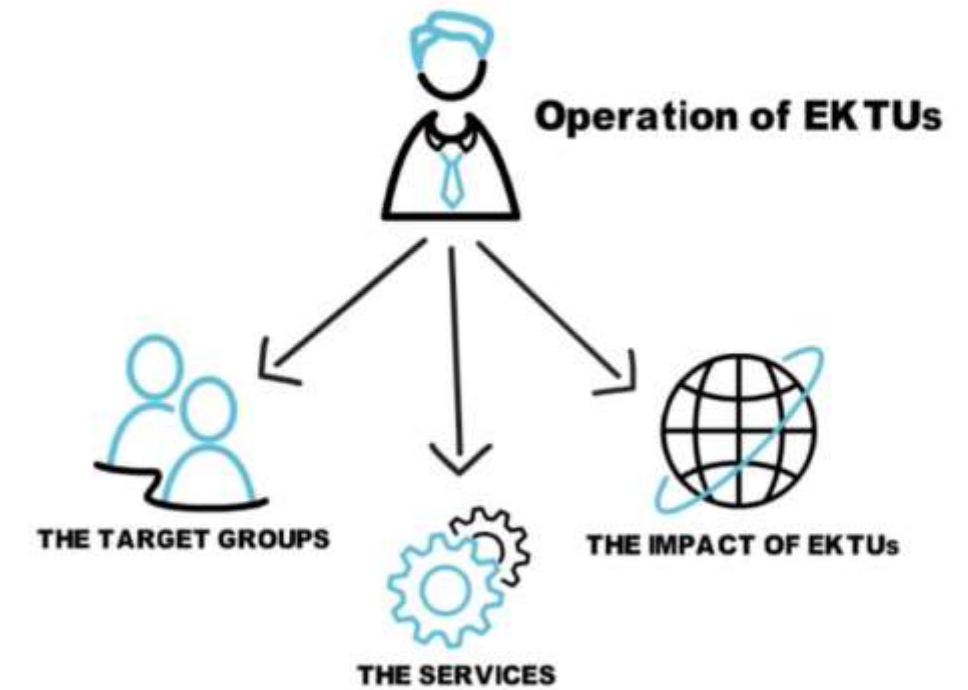

Description :

Zoom in to the details of Operation of EKTUs

Slide 33

Description :

Zooming out and displaying the whole Point of Installation and Operation of 6 EKTUs
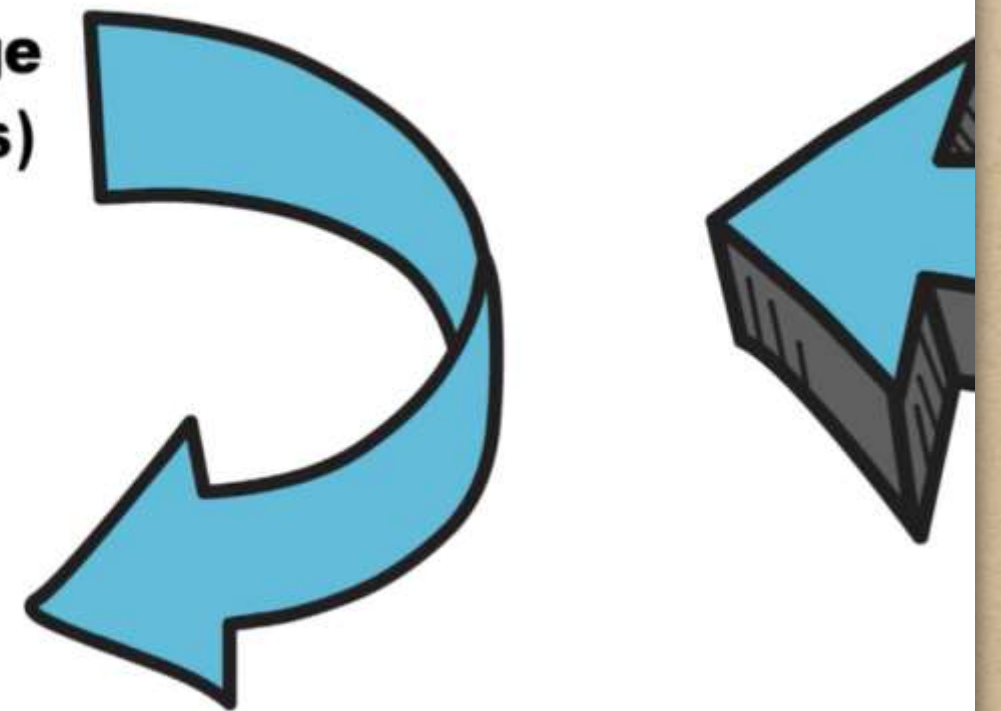

Description :

4.   Fostering university collaboration through Engineering Knowledge Transfer Units, focusing on the latest trends in automotive engineering and building a UNITED network for international exchanges on Automotive Engineering.

Description :

EKTUs and the overall goals of the UNITED Project will help to:

• enhance university business cooperation

• improve students work readiness

• improve the quality of teaching and the level of expertise required by the market in Higher Education Institutions

• and encourage internationalization
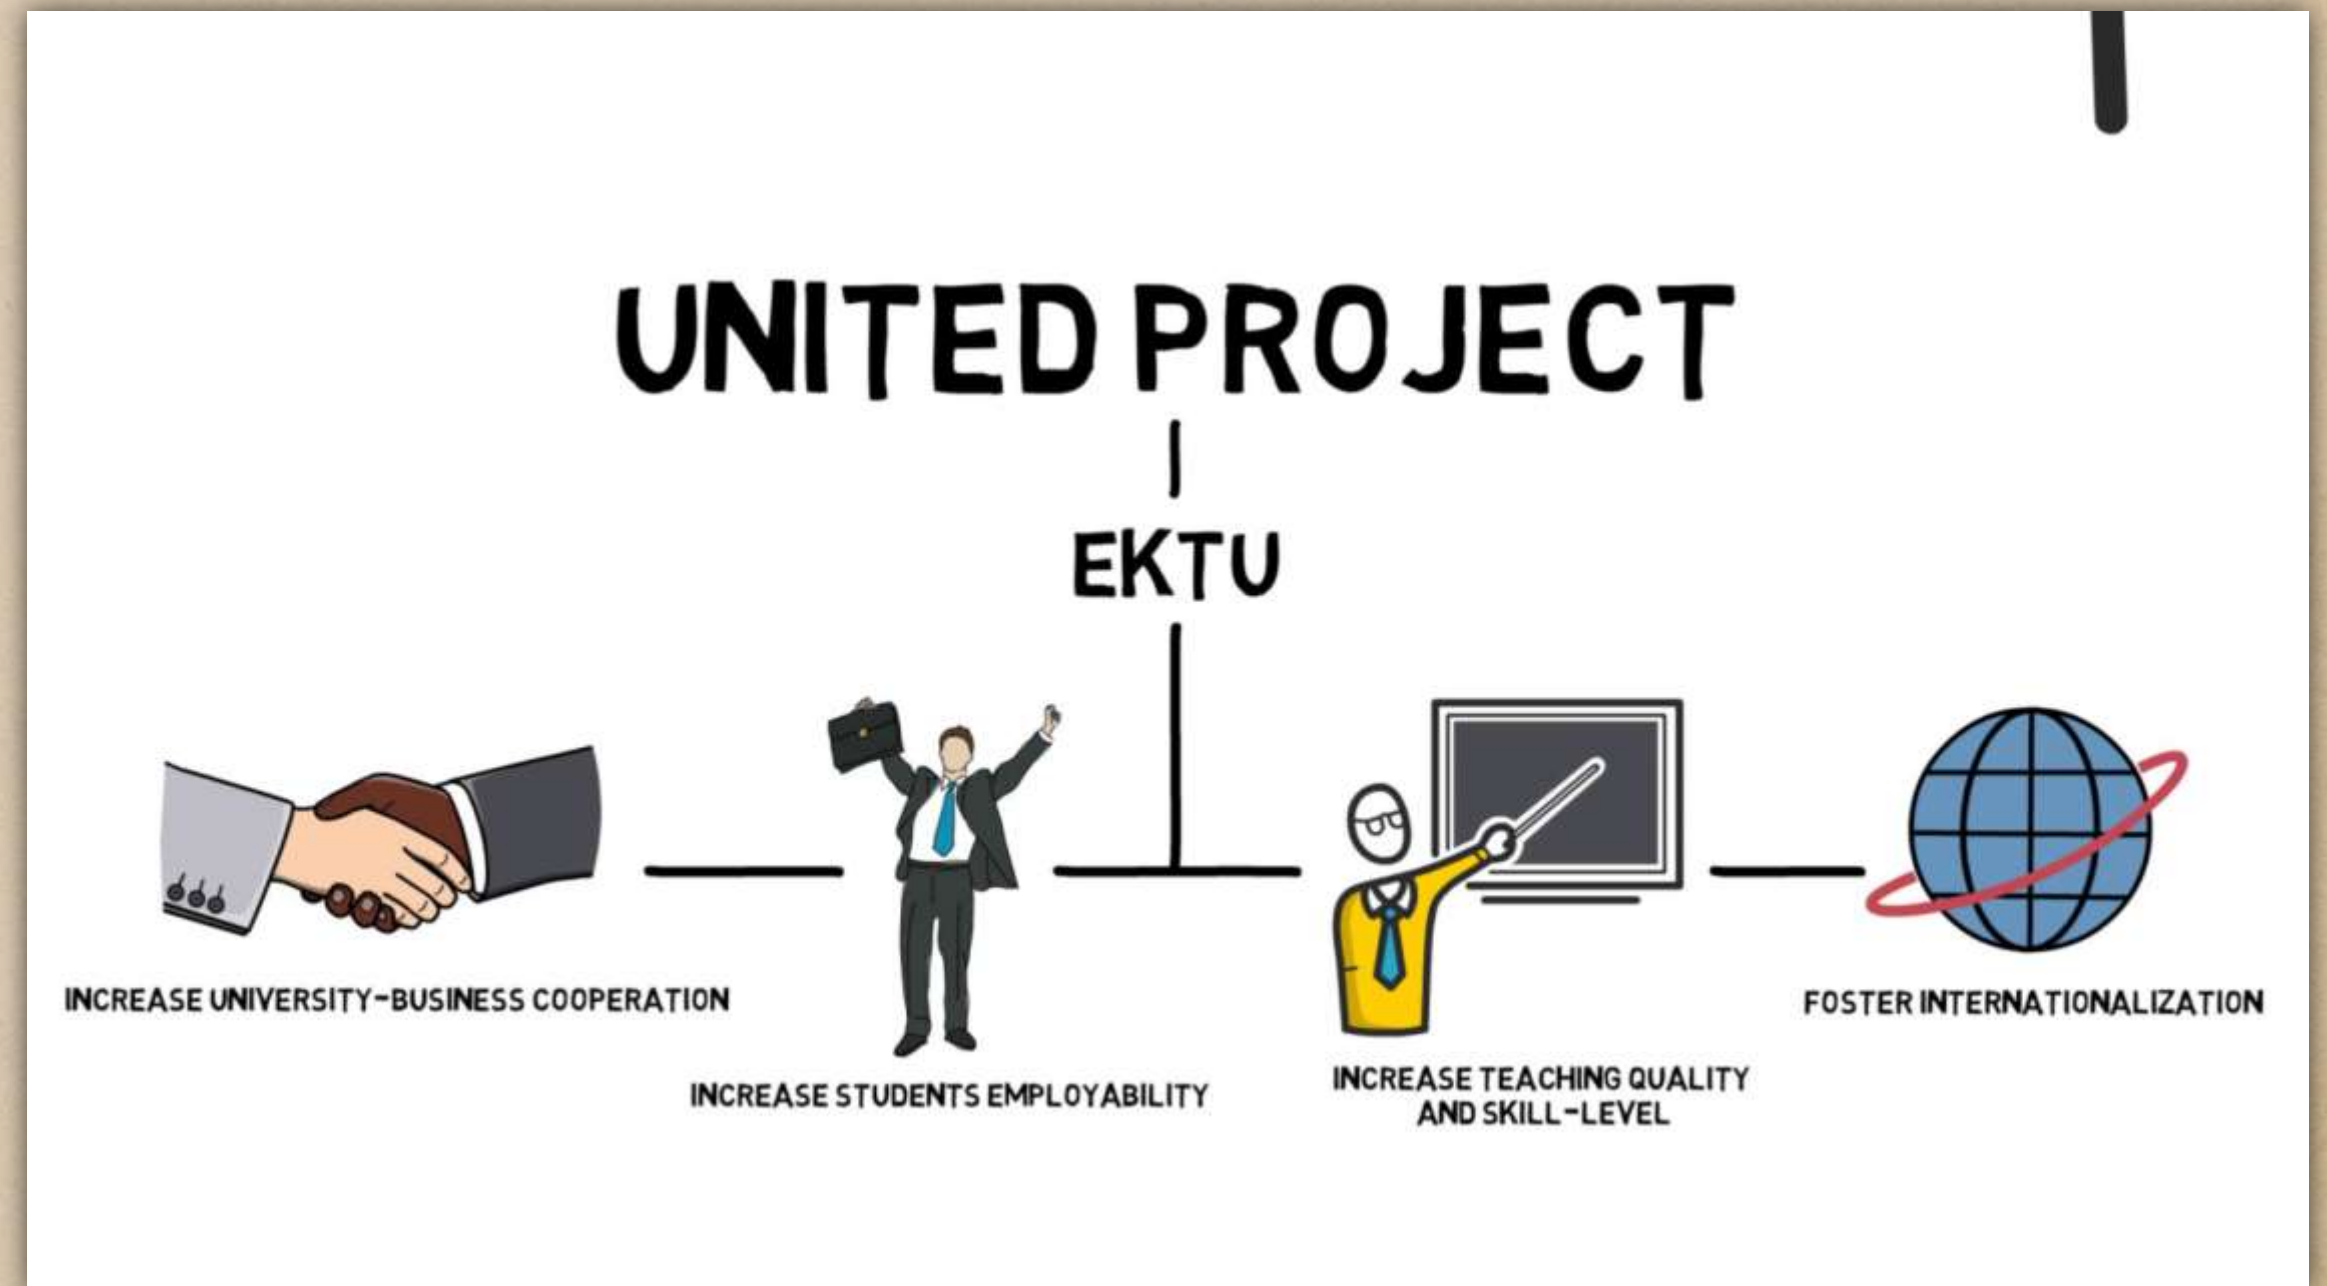

Slide 36

Description :

Zooming out and showing the whole UNITED project discussion
