

CHALLENGES IN ELECTRIC AND HYBRID-ELECTRIC AVIATION

CALL FOR PAPERS

28-29/10/2024

POLITECNICO DI TORINO,
TURIN, ITALY

SAE International Torino is pleased to announce the upcoming workshop on “**Challenges in Electric and Hybrid-Electric Aviation**”.

The event will be held at the **Energy Center**, Politecnico di Torino (Turin, Italy) under the patronage of the **Centre for Sustainable Mobility (MOST)** and **Clean Aviation**.

The workshop will set the ground for a dynamic platform where academia and industry stakeholders can contribute with basic and applied research perspectives to address the challenges and opportunities in electric and hybrid-electric aviation. By fostering meaningful dialogue and collaboration, we envision the following outcomes: knowledge exchange, identifying common goals, policy and regulations, network for collaborative projects.

LOCAL ORGANIZERS:

- **Giorgio Guglieri**, giorgio.guglieri@polito.it
- **Christian Maria Firrone**, christian.firrone@polito.it
- **Gioacchino Cafiero**, gioacchino.cafiero@polito.it
- **Federico Millo**, federico.millo@polito.it

ABSTRACT SUBMISSION:

Authors from academia and industry are invited to submit abstracts of 300 words or less for review by the Scientific Committee. Abstracts will have to be submitted by sending an email to **events@saetorinogroup.org**. Upon submission, a confirmation email will be sent to the corresponding author.

Non-related manuscript:

Authors who are willing to submit a manuscript will have the opportunity to submit it for publication in the SAE Technical paper conference proceedings after the event through the SAE My Tech Zone tool.

Link and updates of the workshop will follow on SAE Torino webpage saetorinogroup.org.

**THE DEADLINE FOR THE ABSTRACT
SUBMISSION IS SEPTEMBER 15, 2024.**
